

Heating Engineer
Norwich
Full Time / Permanent
£30,000 - £35,000 DOE

Green Home Energy Solutions are seeking an experienced Heating Engineer to join our team on a permanent basis. In this role you will be part of a team responsible for new installations and maintenance of renewable heating technologies.

Main Duties:

- Installation, maintenance, servicing, fault-finding and break downs
- General plumbing issues e.g., Fixing leaks, replacing valves etc.
- Technologies covered: Biomass Boilers, Solar Thermal and Air Source Heat Pumps
- Covering domestic and commercial projects in Norfolk and Suffolk
- Maintaining a good standard of workmanship & customer service
- Communicating with the office team and supplying relevant paperwork from site
- Other duties as required

Requirements:

- 2+Years Plumbing & Heating Experience (Gas, Oil or Renewables) – Essential
- Level 3 plumbing & heating or relevant qualification - Essential
- Interest in renewables and willingness to learn – Essential
- Good customer skills – Essential
- Ability to organise and manage time – Essential
- Renewables experience – preferable but not essential (training provided)
- G3/Unvented qualification - Advantageous

Details:

- Permanent position
- Working hours: Monday to Friday 7:30 – 16:30
- No call out rota just occasional flexibility on core hours depending on customer needs & workloads
- Hourly rate and weekly pay
- Training provided
- Rewards for outstanding work
- Van, Fuel Card, PPE and Tools provided
- Standard holiday entitlement & Pension scheme
- Progression available for the right candidate

About us:

Established in 2008 starting as a Solar PV installer, we have since expanded the business to provide a range of products including Biomass Boilers, Air Source Heat Pumps, Solar Thermal, Battery storage and now wood pellet deliveries. We are a forward-thinking company with a passion for renewables.

If you are in possession of the above skills, please apply by sending your CV to jo@greenhomeenergysolutions.co.uk - no recruitment agencies please.
